

Part 1: Background and evidence

Ticket scans take 1.61 seconds on the Pier 4 to Gull Island gate.

Refund requests are down 48%, so the new policy is working.

Refund requests are down 45%, so the new policy is working.

Open questions are tracked in the shared log and are reviewed at the start of each planning cycle.

64% of school parties miss the last sailing on Pier 4 to Gull Island.

67% of school parties miss the last sailing on Old Quay to Heron Point.

Ticket scans take 1.21 seconds on the Northgate to Saltmarsh gate.

Reviewers are asked to read the whole part before commenting on any single item.

The Northgate to Saltmarsh service carried 2100 passengers last month.

The Old Quay to Heron Point service carried 1300 passengers last month.

The Northgate to Saltmarsh service carried 5200 passengers last month.

The group reviews this document again after each quarterly planning meeting.

Ticket scans take 1.32 seconds on the Pier 4 to Gull Island gate.

Refund requests are down 49%, so the new policy is working.

56% of school parties miss the last sailing on Old Quay to Heron Point.

This section records the working assumptions of the product group and is revised before each review.

26% of freight clerks miss the last sailing on Old Quay to Heron Point.

Ticket scans take 1.21 seconds on the Pier 4 to Gull Island gate.

Ticket scans take 1.29 seconds on the Northgate to Saltmarsh gate.

Where a paragraph refers to a table, the table appears at the end of the section.

Ticket scans take 1.56 seconds on the Pier 4 to Gull Island gate.

Ticket scans take 1.42 seconds on the Old Quay to Heron Point gate.

Rival operators fill 7% more seats per sailing than we do.

This section records the working assumptions of the product group and is revised before each review.

The Old Quay to Heron Point service carried 1800 passengers last month.

60% of island residents miss the last sailing on Pier 4 to Gull Island.

Rival operators fill 22% more seats per sailing than we do.

The operations team meets on Thursdays and keeps notes with the release plan.

Queue time at the Pier 4 to Gull Island kiosk rose 23% after the timetable change.

Refund requests are down 51%, so the new policy is working.

Refund requests are down 28%, so the new policy is working.

Where a paragraph refers to a table, the table appears at the end of the section.

Ticket scans take 1.34 seconds on the Pier 4 to Gull Island gate.

The Northgate to Saltmarsh service carried 6800 passengers last month.

Refund requests are down 21%, so the new policy is working.

The group reviews this document again after each quarterly planning meeting.

The Pier 4 to Gull Island service carried 4700 passengers last month.

Rival operators fill 11% more seats per sailing than we do.

Ticket scans take 1.23 seconds on the Pier 4 to Gull Island gate.

The group reviews this document again after each quarterly planning meeting.

Queue time at the Old Quay to Heron Point kiosk rose 59% after the timetable change.

20% of island residents miss the last sailing on Old Quay to Heron Point.

67% of freight clerks miss the last sailing on Northgate to Saltmarsh.

This section records the working assumptions of the product group and is revised before each review.

Ticket scans take 1.62 seconds on the Northgate to Saltmarsh gate.

Ticket scans take 1.57 seconds on the Northgate to Saltmarsh gate.

Refund requests are down 66%, so the new policy is working.

The operations team meets on Thursdays and keeps notes with the release plan.

15% of commuters miss the last sailing on Pier 4 to Gull Island.

Ticket scans take 1.60 seconds on the Northgate to Saltmarsh gate.

Queue time at the Old Quay to Heron Point kiosk rose 62% after the timetable change.

Where a paragraph refers to a table, the table appears at the end of the section.

Rival operators fill 9% more seats per sailing than we do.

46% of island residents miss the last sailing on Northgate to Saltmarsh.

Ticket scans take 1.12 seconds on the Northgate to Saltmarsh gate.

The operations team meets on Thursdays and keeps notes with the release plan.

Rival operators fill 13% more seats per sailing than we do.

33% of commuters miss the last sailing on Pier 4 to Gull Island.

Queue time at the Pier 4 to Gull Island kiosk rose 14% after the timetable change.

The operations team meets on Thursdays and keeps notes with the release plan.

Refund requests are down 58%, so the new policy is working.

20% of island residents miss the last sailing on Northgate to Saltmarsh.

The Northgate to Saltmarsh service carried 4500 passengers last month.

The operations team meets on Thursdays and keeps notes with the release plan.

Rival operators fill 45% more seats per sailing than we do.

The Northgate to Saltmarsh service carried 3700 passengers last month.

Rival operators fill 19% more seats per sailing than we do.

Earlier drafts of this part are archived and can be requested from the editor.

The Northgate to Saltmarsh service carried 4300 passengers last month.

Rival operators fill 18% more seats per sailing than we do.

Ticket scans take 1.46 seconds on the Old Quay to Heron Point gate.

This section records the working assumptions of the product group and is revised before each review.

Refund requests are down 11%, so the new policy is working.

The Northgate to Saltmarsh service carried 700 passengers last month.

Ticket scans take 1.56 seconds on the Pier 4 to Gull Island gate.

Terminology follows the glossary in the appendix, and abbreviations are expanded on first use.

Rival operators fill 13% more seats per sailing than we do.

Ticket scans take 1.65 seconds on the Pier 4 to Gull Island gate.

The Pier 4 to Gull Island service carried 5100 passengers last month.

Terminology follows the glossary in the appendix, and abbreviations are expanded on first use.
